

Africa Marine Sarl – Information brochure

COMPANY PROFILE:

Africa Marine was created by the association of a group of Moroccan maritime competencies.

The aim of this association is to provide an effective and practical response to almost all types of transport and insurance related problems destined to underwriters or any other parties in connection with this activity (law firms, adjusters, brokers, banks,...)

Our team accumulated many years of combined seagoing, claims, and technical experience, and therefore we are well positioned to reply to the needs of the marine and transport community.

For our interventions we always bear in mind that communication is a corner stone and our clients are kept updated about the situation as it may be necessary thanks to new technologies.

Our office manager Captain Mohamed Lefdali is a sworn surveyor. He is a seagoing captain and holder of an MBA from the University of Sherbrook. He has in records, many years of experience on board of different types of vessels (Chemical tankers, containers, ro/ro, genral cargo, passengers,...).

Captain Mohamed has also worked as fleet captain and operation manager for an important shipping line for many years. He is very versed in all types of surveys and frequently attend seminars organized by international bodies.

The back office is directed by Capt Azeddine who is a seagoing captain with many years of experience at sea as well as ashore. He has been navigation on board different types of vessels (ro/ro, containers, passengers, reefers, dredgers ...). He also holds a master in maritime law from the University of Marseille and an MBA. Among other distinctions, he passed with merits the Lloyds CSPS II certificate.

Captain Azeddine has a also an interesting experience ashore as he worked in the field of marine insurance and claims handling for a major liner.

In addition to our internal staff, a number of technicians & survey assistants are available to carry out routine duties in order to cover the whole Moroccan territory.

We can also arrange surveys in other countries if advised in time to accomplish the necessary administration formalities.

Few hours after our missions preliminary reports are sent to the clients and comprehensive reports are prepared to suit the Client's particular need.

These reports can be written in English or French or Arabic, illustrated with photos and sketches as necessary to provide the best description of the conditions found and the actions taken.

Our operational staff is available round the clock and 7 days a week.
